

625kg Capacity Outdoor Glassworker 625 Glazing Robot

The new Glassworker 625 Glazing Robot is perfect for construction projects with large window sections that require a large load capacity of up to 625 kg, for example, for triple-glazed windows. With a width of only 830 mm, it can fit through any opening at the construction site while still making it possible to carry out vertical assemblies of up to 3.10 m width and up to 3.60 m overhead. Perfectly coordinated stepless drive unit and three-dimensional control technology with hydraulic vacuum suction system.
