Plate Glass Transporter (Model: B0051)

• A must have tool for moving large sheets of glass over distances where carrying the sheet may be too strenuous or even dangerous.

• Maximum Opening Size: 2700mm x 2700mm to deal with large sheets.

• Folded Up Size: 1640mm x 430mm x 300mm so that transport is not an issue.

• It has independent steering with four revolving wheels on the front and back so it can be easily manoeuvred around the tightest corners.
