

ROBUSTUS Roller Profile - 10mm to 12.76mm Glass (Model: GSTR002)

(bedding material not included)
 Maximum load
 for 2 roller assemblies approx. 70 kg
 for 4 roller assemblies approx. 140 kg

- Robustus is a fittings system for glass thicknesses from 10mm to 12.76mm.
- It can be used in a range between 70 kg (2 rollers) and 140 kg (4 rollers) and is therefore also suitable for security glass.
- The option of a lateral frame profile section with damper profile protects the glass at the edges and stops dust.
- Adjustable end position damping devices stop the glass from striking the lateral frame and at the same time prevent it from being lifted off.
