

Glass Worker 425kg Glazing Robot (Model: VHIREGW425)

- The Glassworker GW425 glass lifter is very agile, perfect for use on construction sites and indoors. With a carrying capacity of up to 425 kg and its slim design, it fits through narrow doorways.

- Ergonomics, economy and easy handling at a very high level of performance – these are the key features of the GW 425 glass lifter.

- The computer-based self-monitoring safety system makes it the safest, a load capacity of 150 kg with fully extended arm the strongest device in the 400 kg class. A wide range of optional accessories as well as the optional lacquer finish in your desired color complete the package.

- Lifting capacity max. 425kg
- Lifting height (vertical) 3.00m
- Lifting height (overhead) 3.40m
