

UPG350, UPG600 & UPG1000 Transport Dolly (Model: T.UPG.200)

• Construction sites are becoming more and more complex, and the question becomes, *How do I get this device to where I need it?* The UPG 200 is the best solution in this situation and is the ideal accessory for the UPG 350 or UPG 600 vacuum lifter. Thanks to its compact design, the lifter can easily grip and move objects. Its featured design aspects are simple to operate with a low weight of only 16 kg with a maximum load capacity of 200 kg.

• Key Features

- Compact and manoeuvrable transport.
- One person control.
- Suitable for indoor and outdoor use.
- Powder-coated.
