

Dry Glazing U Channel - 38x25x19 - Brushed Satin Anodised (Model: G7028A)

- These U Channels provide the most economical way to glaze heavy glass.
- Using the Deep U-Channel on the top and Shallow U-Channel on the bottom allows for the 'shuffle glaze' method of glazing.
- The glass can be secured with silicone sealant or our Top Load Roll-In Glazing Gasket.
- Roll in wedge gaskets for 10 or 12mm glass are sold separately.
