

Repel Glass & Surface Cleaner & Protector (Model: N0028B)

- The world's first "Dual Action" glass & surface cleaner & protectant utilizing new 3D Nano-coat technology!

- Cleans glass to a streak free shine & simultaneously protects glass and other surfaces with a water, soil & stain resistant "nano-scale barrier" coating that dramatically reduces the adhesion & buildup of soil & grime for easier cleaning!

- It repels hard water spots, oil, grime, dust, fingerprints, smudges, soap scum and mineral stains on all glass including shower doors, glass facades, windows, mirrors, tables, partitions, toughened glass, laminates, sand blasted glass, solar panels & many more hard surfaces.

- Repel makes glass almost self-cleaning! This storage-stable, solvent-free spray & wipe product is non-toxic to users and is earth safe.

Attributes:

Product Code: N0028B

Unit Of Sale: 946ml

AGC Glass, AU 2017
 Skyscraper facade from east side. **Invisible Shield** was used to treat glass for long term protection against contaminants and permanent corrosion.

Istinye Park Izmir - Turkey 2020
 Glass is one of the most alluring yet delicate compounds on the planet, often times it is damaged before it is even installed. **Invisible Shield** is being tested to treat much of the new glass construction.

Vitrazza Glass Chair Mats
 Vitrazza's famous glass floor mats have included the **Invisible Shield** nanotech coating to help prevent etching, scratches for an easy, smooth glide.

Children's Medical Centre, AU
 Glass distributed by D. James and protected with **Invisible Shield** to inhibit scratches and improve appearance of glass. Representative of Unieko, Mark Eloff of APQ Glass.

Smithsonian American Art Museum - Washington, DC 2016
 Vulnerable horizontal glass can become easily corroded and quite labor intensive to clean. **Invisible Shield** coating was applied many years ago to preserve the glass and reduce the cleaning overall.
