

Soudal General Purpose Trade Foam - Gun Type (Model: N.SOU.FOAMTRADE.GUN)

- Soudal General Purpose Trade Foam is a dependable solution for various construction needs.
- This moisture-curing polyurethane expanding foam is designed for general-purpose gap filling, offering versatility and reliability.
- It adheres effectively to most common building materials and remains resistant to water, heat, and aging, ensuring durability in diverse environments.
- With excellent sound and heat insulation values, it contributes to energy efficiency and comfort in both internal and external applications.
- Once fully cured, it can be easily cut, sanded, plastered, and painted to achieve a seamless finish.
- Its high gap-filling yield makes it ideal for filling and insulating holes, voids, gaps, and joints in common construction applications.
- It's suitable for use around window and door frames, as well as for insulating around pipes and electrical wiring.

Attributes:

Product Code: N.SOU.FOAMTRADE.GUN

Unit Of Sale: Box 12
