

Soudal Airtight Window and Door Installation Foam - Kit (Model: N.SOU.FOAMSW.S.KIT)

- Soudal Airtight Window and Door Installation Foam has all the benefits of normal foam but has the added benefits of being airtight thermal energy saving flexible window and door expanding foam with high acoustic properties. Recommended for all A, A+ and A++ windows and doors or any applications where an airtight seal is required. Airtight premium quality polyurethane expanding foam filler for use around windows and doors.

- Totally airtight after curing and is 3 times more flexible than standard PU expanding foams. The product is highly flexible once cured, based on FLEXIFOAM technology, which gives improved durability. Single component Gun Grade foam with rapid curing and primerless adhesion on most construction materials. Bonds to all the normal building materials used on site in the home and commercial premises.

- Box Contains
 - 5 x Soudafoam SWS
 - 1 x PU Foam Applicator Gun
 - 1 x Soudafoam Cleaner
