Soudal General Purpose Trade Foam - Combi Kit (Model: N.SOU.FOAMTRADE.KIT)

• Gap filling bundle with rapid curing polyurethane expanding foam, professional PU applicator gun, and foam gun cleaner; everything needed for quick and easy bonding and sealing.

• Soudafoam Gap Filler can be cut, sawn, sanded, painted or plastered over, is commonly used in the installation of windows and door frames, filling cavities, and sealing openings.

• What you get
- Gap Filler PU Foam (x6): Easy to use, rapid curing polyurethane expanding foam. Gives primerless adhesion on most construction materials with high gap filling expansion.
- Applicator Gun: Professional heavy-duty applicator for use with gun grade expanding foam. Easy to use with great precision and flow control, means neater and more efficient work.
- Foam Gun Cleaner: Ready-to-use solvent-based aerosol for dissolving uncured spilled PU foam, and cleaning foam guns after use. Use immediately after gun use to easily unclogs valves and nozzles.
