## 9mm 'White' 50Mtr Self Adh. Lead (Model: P0020)

• Our Self adhesive profiles are made with 99.5% pure lead which is modified with a small amount of antimony to improve its weathering performance and surface polish.

• A high performance, acrylic, pressure sensitive adhesive ensures a long life span in both single glazing and in double glazed units.

• All our products are manufactured to ISO 9001:2 quality standards and have been tested in units complying with the European standard EN1279.

• Our coated lead products have been fully weather and age tested to the ASTM-G53-96 standards.
