

Solar 150 Film 48% Inside 1.52 x 10mtrs Grey-Blue (Model: Q0048)

- The solar protection adhesive film allows overcoming the greenhouse phenomenon effectively. This film rejects 54% of solar energy and reduces the overheating keeping the external vision. It is a real factor for improved comfort.
- The solar protection adhesive films are composed of 2 layers of vacuum-metalized polyester, an adhesive and a protective film (which is to be removed while installation). They are scratch-proof.
- For all single glazings or tempered glasses.
- Internal surface with soapy water.
- Solution of soapy water, 30 days after installation. Products that could scratch the film should not be used. Do not put stickers or any other adhesives on the film.
- 12 to 15 years for vertical application in Central Europe.
- 2 years from the delivery. This film should be kept away from excessive moisture and away from direct sunlight at temperature below 38°C.
