

UV High Humidity Bond 'Green' 690-0 (Model: R0027)

- Verifix B 690-0 UV-curing adhesive is crystal clear, relatively thin in consistency and shows good capillary action with glass up to 6 mm thick.
- Due to its elasticity it is especially suitable for surface bonding and for bonding toughened glass.
- Supplied in an 85g bottle.
- Features:
 - For three dimensional bonding.
 - For bonding larger surfaces up to 1 m2.
 - When there are high demands on the elasticity / when there is humidity.
